 ARDACA M

## ArdaCam

Founded in 1989, ArdaCam has been one of the pioneers in bringing spun glass craftsmanship to the global stage. Over the years, at its plant in Istanbul, Türkiye through its propriety designs, the company has expanded its production and export network to 80 countries, achieving a portfolio over 2.000 unique molds for plate and bowl manufacturing.

In 2022, ArdaCam embarked on a new journey by entering the HoReCa sector with the same dedication and expertise.

To meet the demanding conditions of professional kitchens we focused on developing strong and scratch-resistant glassware. As a result, our collections are not only visually striking but also durable.

Today, ArdaCam Horeca collections are represented in 50 countries, offering chefs uniquely designed glassware that elevates their presentations into true works of art. Throughout this journey, we have collaborated with consultants and renowned chefs from various countries to develop a product line that combines aesthetics with functionality.

We strongly believe that success comes through constant improvement. Our goal is to combine the traditional spinning technique with the chefs' masterpieces, bringing the spark and nature inspired forms of glass to your tables.

## THE SPINNING METHOD

The spinning method is applied as the molten glass is taken into a mold and rotated around the axis of the mold, and the glass takes shape in the mold. The spinning method has been widely used in every period from the past to the present.

## WHY ALABASTER?

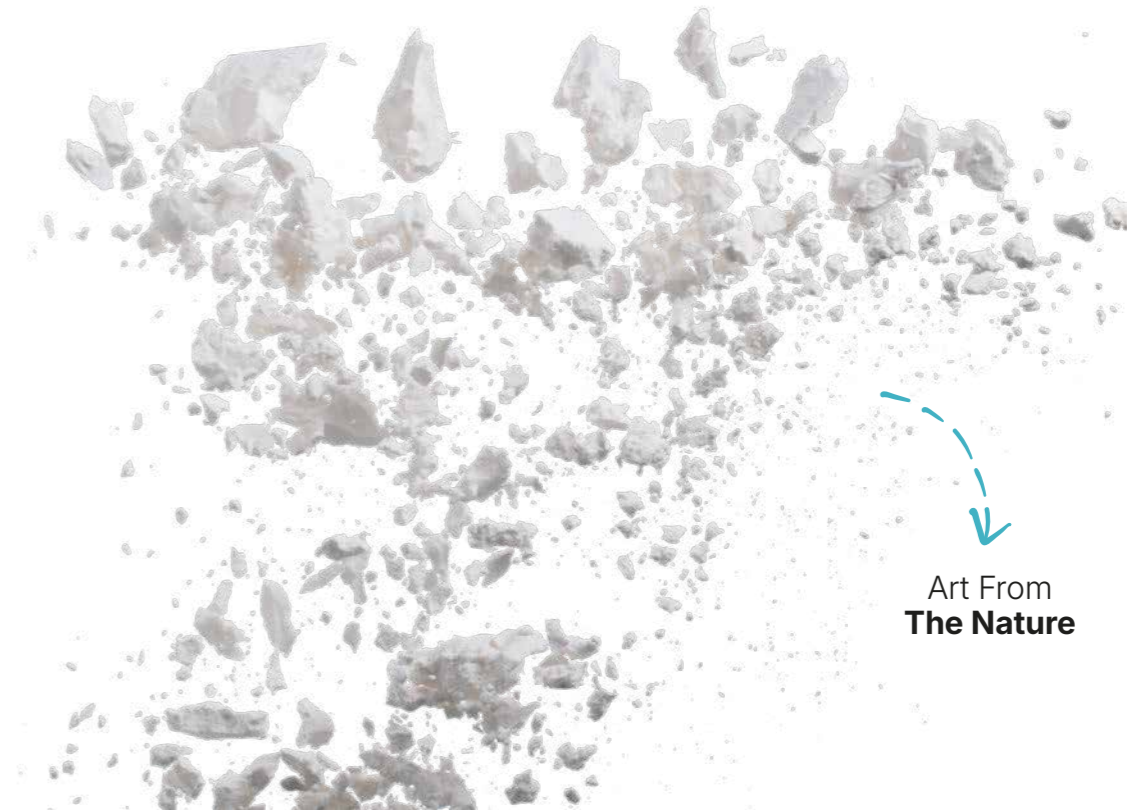

Alabaster comes from a soft and translucent stone that is often used for carving. It has always been used for decorative artifacts.

Alabaster colors are special when applied while fusing glass.

The colors are protected by a layer of glass. There is no contact between the alabaster color and food or drink.

Alabaster decorating allows for giving color to the glass without losing its transparency.

- Colors can be mixed together to create unique results.
- It is a natural stone, which increases the durability of the product.
- Long-lasting and scratch-proof decoration
- Suitable for tableware items.
- Lifetime dishwasher-safe guarantee.
- Possible combination with other materials.
