Where earth meets flame

Fire from Off Grid Studio is designed by Potter Sam Gordon to blend the look of hand-crafted pottery with modern durability. Inspired by the raw beauty of wood-fired ceramics, Fire captures the essence of this traditional process, where wood is the sole fuel and the kiln requires constant attention to reach and maintain high temperatures. As the wood burns, its natural minerals vaporize and interact with the clay, creating organic, brush-like glaze effects that only nature can achieve. Offered in three semi-matte glazes, Smoke, Timber, and Ember, each piece is intentionally reactive, showcasing unique highlights, subtle colour shifts, and one-of-a-kind edge details. Available in nine shapes across coupe and presentation-style profiles, Fire pairs timeless craftsmanship with functional elegance for today's tabletop.

"Wood fired ceramics is in my opinion the truest form of pottery; the clay is dug from the earth, touched by hands and transformed by fired wood." -Sam Gordon

Fluted modern design

The distinctive fluted design of Palm is crafted from the finest 18/10 stainless steel and has a polished finish that reflects the light. Feeling tactile in the hands, the mills feature a ceramic mechanism from CrushGrind® which is easily adjustable from fine to coarse, easy-to-refill from the top and reassuring lifetime guarantee.

An elegant black and white collar and base clearly distinguishes salt from the pepper, ensuring every dish is perfectly seasoned. The modern design complements the Palm cutlery range, with vertical lines providing additional protection against fingerprint marks.

A handy stainless steel tray includes moulded wells to keep the mills securely in place and capture any loose grains to keep surfaces clean.
