THE ART OF PRESENTATION

The Art of Presentation

You're not just setting a table. You're creating an experience, telling a story, sharing a culture – and food is at the heart of it. Food brings people together and connects them to tradition and inspiration.

At Steelite, we believe that tableware should do more than serve your food – it should serve your vision. We design, craft and curate the very best in tableware for chefs and concepts across the globe.

Partnering to create an unmatched range of inspired tabletop experiences where shape, colour, texture, light and weight combine to feed the senses. Helping our customers set the stage for their menus and their brands. Elevating presentation to an art. Steelite. The Art of Presentation.

steelite
INTERNATIONAL

Steelite International is a world leading manufacturer and supplier of award winning tabletop, buffet and lighting solutions for the hospitality industry. Listening to our customers has allowed us to offer innovative solutions in china, metal, glass, wood and melamine. Servicing over 140 countries, we are committed to offering the best in functionality and design, while minimising the effect on our environment.

The Steelite Experience

Customer satisfaction requires dedication, commitment and a passion to achieve levels of excellence far exceeding expectation. The following pages contain a carefully and deliberately selected collection of ceramics, glassware, cutlery, accessories and more presented by Steelite International in an effort to satisfy this objective. Collections offers a custom look for any tabletop. Discover your opportunities with Distinction and Performance and realise the endless possibilities with our numerous partners in excellence.
We look forward to serving you!

A truly global enterprise

With a wide range of products, Steelite offers a unique solution for any venue. Dominating nearly every industry sector from commercial catering to leisure and hospitality markets, the opportunities are endless with our vast product portfolio. Our core dinnerware lines, Steelite Distinction and Steelite Performance, and proprietary brands, William Edwards, Utopia, Anton Black, Crown Glassware, Creations, Folio, Varick, Aspen, Strahl, D.W. Haber, Kenny Mack Designs, Hollowick and Illumina are complemented by collections from strategically chosen specialist partners.

utopia
By you...

Your Brand, Your Way

A key supplier to the hospitality industry Utopia by You offer a full range of decorating capabilities, from skilfully applied hand decoration through to intricate multi-colour branding, our team have unrivalled experience and knowledge.

At the heart of our custom built production facility, is the Kammann decorating machine, German technology at the forefront of glassware decoration. The machine, which is the largest of its kind in Europe, combines pinpoint accuracy with stunningly bright UV ink technology to give unparalleled results and not just on glassware, we can offer the same capabilities on our rigid, re-usable plastics, perfect for outdoor events.

Alongside this revolutionary machine we have a skilled workforce capable of hand decoration and decal application, ensuring a breadth of capabilities second to none.

One area sometimes overlooked is our laser nucleation, using standard or bespoke patterns to aid effervescence in carbonated drinks this can be a cost effective way of re-enforcing a brand message or simply enhancing the drinking experience.

With few limitations we aim to give clients what they truly want, without compromise.

A step change in the decoration of glassware with the added benefit of not causing de-toughening of toughened glass products, which can be a problem with other decorating methods. Furthermore, the glass wash performance is greatly improved over conventional methods of decoration ensuring that the customer's brand identity is protected for a longer period.

The Utopia by You department isn't solely about the process, our team are experts in the field and available to advise on projects, ensuring our clients have the right product and decoration for their needs. We are excited for you to experience the possibilities that Utopia by You can offer, don't hesitate to contact us and discuss your requirements.

Utopia Dinnerware

Stylish and creative dinnerware

Designed specifically for creative minds in the hospitality industry, Utopia's dinnerware collection serves as the ultimate canvas for breathtaking presentations. Each piece is thoughtfully crafted to inspire and elevate the tabletop experience and ideal for casual dining settings. Through unique textures, colours, and organic shapes, Utopia effortlessly combines beauty with functionality.

- Unique & creative designs
- Short ranges meant to complement several Steelite dinnerware brands
- A focus on innovation and creativity
- 5-Year Limited Edge Chip Warranty on select products

UTOPIA

Creating a memorable dining experience

utopia

*Steelite warrants select product in the Utopia dinnerware line against edge chipping under normal usage conditions from the date of delivery for five years. This warranty is available only to the original party purchasing this product from one of our authorised distributors. Registration is recommended. We reserve the right to determine if the chipping is from normal usage. Failure to register will require proof of purchase when submitting a claim.

Murra

Murra references the luxurious ceramic vessels created using semi-precious materials by the artisans of ancient Rome. With this expansive collection in five colourways it's never been easier to personalise the presentation of food and bring individuality to any venue. The reactive blue glaze of Pacific creates stunning tonal effects evoking crystal clear waters and bringing vibrancy to the table.

Patterns Available: Pacific, Ash, Honey, Blush, Toffee

Forma

The Skandi-inspired aesthetic of the Forma collection takes on a softer palette. Three lightly speckled colours, Harbour, Fog and Sand, are contrasted with white edging and finished in a subtle low sheen glaze, creating a range which combines functionality with casual sophisticated style.

Patterns Available: Harbour, Fog, Sand, Vanilla, Forest, Charcoal

Due to the nature of the decoration some colour variation may occur.

Corduroy

Corduroy plates feature a generous wide rim enhanced with colour catching ridges adding depth to the reactive glaze. Each piece of Drift is finished with a sponged contrasting colour to create a truly individual feel. The ridged texture takes on another dimension when applied to the outer walls of the complimentary pieces. A rich deep green casts dappled patterns across an olive ground, picking out the ridged body of each piece in the concise Fern collection.

Barista

Espresso

Perfect for single or double espresso. The small size and thick walls help lock in temperature, with the narrow base concentrating the flavour. All this combines to give the real aroma and proper presentation of an espresso.

Utopia Whiteware

Bringing individuality to the table

Utopia Whiteware provides the perfect blank canvas to create your own work of art. We have a solution for all your needs; from the Anton Black range, exuding contemporary design with exceptional strength, through to the practical and durable Titan collection, and cost effective Pure White. All of our Whiteware is accredited with British Hotelware Standard BS4034 and is made to the highest standards

UTOPIA

Creative food presentation

utopia

Anton Black®

*Steelite warrants select product in the Utopia dinnerware line against edge chipping under normal usage conditions from the date of delivery for five years. This warranty is available only to the original party purchasing this product from one of our authorised distributors. Registration is recommended. We reserve the right to determine if the chipping is from normal usage. Failure to register will require proof of purchase when submitting a claim.

Anton Black® Whiteware

The Anton Black collection exudes elegance and contemporary design, together with exceptional strength. This range of complementary designs and shapes can be combined to create the perfect table setting for every occasion.

Pure White

Pure White is a range of fully vitrified economy porcelain, developed in recognition of the market's need for a cost effective tableware collection. The range is accredited with British Hotelware Standard BS4034, demonstrating a high resistance to water absorption, fully microwave and dishwasher safe and designed to withstand the rigours of any catering environment.

Creative Table

Presentation is everything, how you serve can change a dish, a taste and an experience. We have made a collection of creative products which can help bring out the best in every dish.

The Creative Table celebrates self-expression at the point of serve

Blurring the lines between function and design, this collection is built for chefs who treat presentation as an extension of their creativity. Layer materials, play with height, mix textures and shapes - Creative Table gives you the freedom to build visual stories that elevate the dining experience and set your table apart.

Artemis

Artemis, a contemporary collection, expertly merges the robust qualities of stainless steel with a distinctive rumbled finish, offering a modern twist on classic aesthetics. Available in two vintage finishes - Steel and Gold - Artemis adds a touch of individuality to your dining experience.

Bowls within the Artemis collection feature a double-walled construction, making them ideal for both hot and cold dishes. This innovative design enhances the utility and aesthetic appeal of the collection. The Artemis range, encompassing eight pieces, all characterised by their light weight and versatility offer a fresh perspective on the dining experience.

Illumina
Premium Cordless Lighting

Embrace the pinnacle of cordless lighting with our Premium Collection

Experience the epitome of elegance and performance with our Premium Cordless LED Lamps. Meticulously crafted to surpass expectations, these lamps boast higher water and dust resistance, ensuring reliability in any environment.

With an extended battery life, your venue stays illuminated throughout the night, providing a seamless experience for your customers. Across the Premium Collection we have four finishes, sleek black, rustic corten and you can add a further touch of luxury with our stunning PVD finishes in gold and copper along with champagne and gunmetal, radiating timeless sophistication that perfectly complements the venues aesthetics.

Premium Product Features Include:

- Touch on/off
- Smart brightness memory
- IP65 water/dust protection
- Remote control enabled
- Warm & cool colour choice
- Cordless charging
- Clear polycarbonate diffuser for glare free light

Tobermory NEW

A sophisticated new addition to our collection, this cordless table lamp has been designed to bring a sense of timeless elegance to contemporary hospitality spaces. Drawing on traditional styling cues, it offers a warm, refined presence that sits beautifully within upmarket hotels, restaurants and lounges.

The matt champagne gold base is finished with a subtle lustre, catching the light softly to create an inviting ambient glow without overpowering its surroundings. Completely cordless, the lamp allows for flexible placement across tables, bars and reception areas, free from visible cables and constraints.

Remote control functionality provides effortless adjustment of light settings, enabling staff to tailor the atmosphere throughout the day and evening with ease. A perfect balance of classic character and modern convenience, this lamp is an understated statement piece for elevated interiors.

Illumina
Entry Level Cordless Lighting

Our Entry Level cordless lamps are thoughtfully designed to deliver exceptional value for the hospitality industry. Perfect for hotels, restaurants, and event venues, these lamps provide the convenience of cordless charging while maintaining a sleek and functional design.

While they include fewer features than our premium and standard models, they still offer reliable performance and a modern aesthetic that enhances any space. Ideal for businesses seeking stylish lighting solutions at a cost-effective price point, our Entry Level line strikes the perfect balance between affordability and quality.

H02300 ● H 260mm (10.25")
Box of 6 or Sold individually

Technical Information

Model: Tahiti
Switch:
On/Off Button
Dimmable
Warm Colour
Materials:
Die-cast Aluminium Alloy
Frosted Polycarbonate Diffuser

Charging: Cordless
(individual charging base included)
Dimensions:
H 26cm (10.25") Ø max 9.3cm (3.75")
Weight: 514g
Compliance: UKCA - CE - RoHS
Safety: Class III
Rating:
IP54 - Water + Dust Protection
Power Source: 100-240V

Type	Entry Level
Battery	Li-ion 5V
Charge Time	≤3.5hrs
Colour Temp (Kelvins)	3300
Operating Time	≥8hrs
Brightness (Lumens)	140
Power	1.3W
Beam Angle	120°
Light Source	LED

● Stocked in the European Warehouse
Compatible with H90000 (UK) & H91000 (EU) Charging Shelf.

illumina Cuba

A caged lantern style gives Cuba a unique semi-industrial feel, however brushed Copper and Gold finishes add more than a dash of glamour to this individual range.

Paper Straws

Our range of paper straws are: EN13432:2000 accredited

This certification specifically focuses on compostability making sure Utopia's non metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment.

In other words they actually give something back to the earth when their useful life is over.

All our wooden stirrers and papers have been FSC Sourced.

Product testing

We believe in testing all our products to our own as well as industry standards. This is to make sure all our products are best in the market for how and why they are used.

Paper straws are tested against:

- Liquid absorption of different acidities and sugars
- Strength and diameter testing
- Durability with contact to varying liquids
- Ink leakage into liquid after set periods of time
- All Paper Straws are PFA free

We strive to make sure that our straws that enter the market match the level of quality we expect from all Utopia products.

Actions we have taken

- **Certified:**
  PLA Free on all straws and EN13432 certified on select straws.
- **Strong:**
  Lasts 5+ hours without unravelling.
- **Allergen Free:**
  Of gluten and beeswax.
- **Sustainable:**
  FSC certified.
- **Foodsafe:**
  Certified for the UK and EU for food safe standards.

Biodegradability...

Is a material's capacity to be converted into carbon dioxide (CO2) through the action of micro-organisms, under the same process occurring in natural waste.

- Disintegratability, namely fragmentation and invisibility in the final compost (absence of visual contamination).
- Absence of negative effects on the composting process.
- Almost complete absence of heavy metals and the absence of negative effects on compost quality.

Compostability...

Is the capacity of an organic material to be transformed into compost through the composting process. This process exploits the biodegradability of the initial organic materials to transform them into a finished product called compost.

This allows for the waste to add back to the planet rather than detract from it.

Black Non-Slip Trays

Deliver drinks directly to your customer without incident with these high quality non-slip trays. Tough plastic trays with a non-slip rubber layer which has been bonded to the surface which helps to reduce accidental damage. Not recommended for use in dishwashers.

Oval Black Non Slip Trays
JMP924 68.5 x 56.5cm (27 x 22")
Box of 6
Round Black Non Slip Trays
JMP921 40.5cm (16")
Box of 12
JMP923 35.5cm (14")
Box of 12
JMP922 28cm (11")
Box of 12

Fast Food Trays

Economical and lightweight polypropylene trays in a range of colours. The trays have an anti-slip surface and stacking lugs to accelerate drying.

Black Café Fast Food Trays
CACT101403 36 x 26cm (14 x 10")
Box of 24
CACT121603 43 x 30cm (16 x 12")
Box of 24
CACT141803 46 x 36cm (18 x 14")
Box of 12

Blue Café Fast Food Trays
CACT101414 36 x 26cm (14 x 10")
Box of 24
CACT121614 43 x 30cm (16 x 12")
Box of 24

Clear Squeezy Sauce Bottle
F61015 23cl (8oz)
Box of 12
F61016 34cl (12oz)
Box of 12
F61018 68cl (24oz)
Box of 12
F61019 96cl (32oz)
Box of 12

Squeezy Bottles

- Designed with a wide neck and screw top for easy, no spills refills
- Break resistant plastic
- Perfect for front of house but also ideal for food preparation

Storing:

- Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.
- Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.
- Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.
- Do not stack items more than 15" high.
- Only stack products that are designatedas stackable.

Using:

- Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.
- Do not slide items across each other to reduce abrasions.
- Minimise handling to reduce glaze abrasion.
- Be sure to rotate your stock to prevent uneven wear.
- Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low grade steel, which being soft in nature increases the chance of metal marking.
- Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

Washing:

- Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.
- To ensure the quality level of the product it is important to take note of the following:
- Items should be washed within 45 minutes of removal from the table and pre-rinsed.
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- All items should be separated into type prior to washing.
- Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.
- Avoid contact between ceramics, dinnerware and metals.
- Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.
- The use of an approved detergent is recommended.

- For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.
- Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.
- Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

Metal Marking:

- Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.
- Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner.

Custom Decoration:

- Gold and platinum decorations are not microwave safe.
- Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.
- Hand washing is recommended to prolong the metallic lustre of decoration.

Handling & Care:

The correct handling and care of your Melamine buffet and tableware will enhance the appearance and longevity of the product in use. The following guide will assist you.

- Handle melamine dinnerware like any quality dinnerware.
- Clean as soon as possible to help avoid staining and protein build-up.
- Use only plastic pads or plastic type bristle to remove dried food.
- Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.
- Immediately remove any damaged or chipped melamine products from operational use.
- Melamine products can withstand heat up to 212°F (100°C).
- Do not use in oven, microwaves or expose to direct flame, this can cause cracking and blistering from the heat.
- Do not use with heat lamps, conveyor belts, or plate warmers.
- The use of serrated knives is not recommended on melamine products.
- To avoid chipping and scratching, do not strike melamine products with or on any hard surface while attempting to remove excess food.
- Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.
- Do not use chlorine bleach or chlorine-based sanitising solutions when caring for melamine products.
- Only use sanitisers developed for commercial use.
- To avoid chipping and scratching, do not overload your dishwasher rack.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

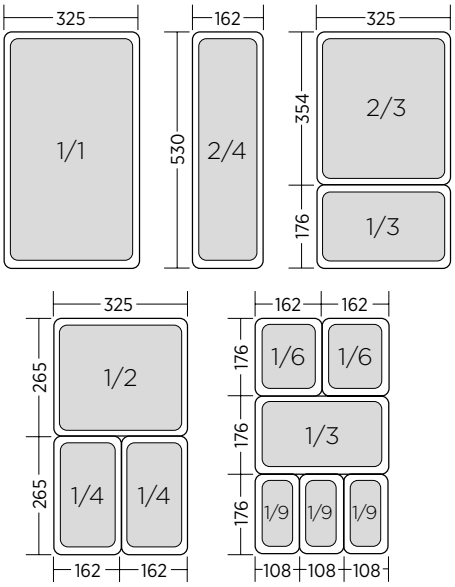

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guidelines). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffetware.

Destaining

- Periodically presoak melamine products before dishwashing to prevent staining and to maintain lustre.
- For staining, use an oxygen-releasing compound such as Dip-It XP (ECOLAB).
- Sponges or woven plastic pads are recommended for cleaning.
- Do not use harsh or abrasive cleaners, steel wool, or metal pot scouring pads to remove food or stains.

Gastronorm Size Guide

Food pans available in standard Gastronorm sizes.

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting.

Storing:

- Never store cutlery where it can become damp, as this can cause corrosion.
- Store out of direct heat, as this can cause the metal to mark.
- Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.
- Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- When pre-rinsing cutlery ensure all food debris is removed before being washed.
- Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.
- Always wash cutlery immediately, never leaving it with food debris present.
- It is advisable to place cutlery vertically into dishwashers with the head up; and not too tightly packed together, this assists the water flow at the end of the cycle.
- Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher, trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.
- Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.
- Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.
- Wood handled cutlery is not suitable for cleaning in a dishwasher.

PVD Coated Items

- For PVD coated items extra care should be taken.
- Whilst dishwasher safe, handwashing is recommended to preserve the finish.
- Avoid prolonged contact with acidic food types.
- Avoid abrasive pads and harsh or chlorine-based detergents.
- Remove promptly after washing and dry thoroughly.
- Do not leave to soak.

Steak Knives:

Wood Handled Knives

- Handwashing is recommended for the best performance and optimal product life.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Water and harsh detergents will dull the finish and dry out the handles.
- It is recommended that the wooden handles be oiled as needed.

ABS (Resin) Handled Knives

- Low temp dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.
- Not recommended for high temp dishwashers that exceed 167°F / 75°C.
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time.

Stainless Steel Knives

- Dishwasher safe.
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly.

Blade Sharpening

- Serrated blades cannot be sharpened.
- Blades with no serrations can be sharpened as needed.
- The frequency will depend on how often the knives are used and how well they are maintained.

Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing, Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

18/10

This is used for contemporary cutlery except knives; it contains 16-18% Chromium and 8-10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
304	18 / 10 or 18 / 8	16–18%	8–10%	3%	29–33%	Iron

18/0

This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
430	18 / 0	16–18%	-	2	18-20%	Iron

13/0 or Knife Steel

This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 12-14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
420	Knife Steel	12–14%	-	2	14-16%	Iron

Storing:

- Never use glass to carry or store cutlery.
- Do not stack glasses that have not been designed to stack.
- Use properly sized compartmented glass racks.

Polishing Stemware:

- Use white cotton gloves or 2 cloths for polishing.
- Polish the bowl first followed by the stem and then the base.
- Do not hold the glass by the stem or the base when polishing the bowl.

Using:

- Do not pick up glasses in clusters.
- Never let the beer tap come in contact with the glass.
- Do not use glassware as an ice scooper.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.
- Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.
- Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.
- Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.
- Gold decorated glassware is suitable for handwash only.
- After washing, remove basket and leave to cool and dry.
- Do not handle stemware when hot.

Information:

See below for a guide to replacement seals for our Preserve Style Jars and Terrine collections.

Item Code	Item Description	Replacement Seal Code
N210965-00000-B01006	Preserving Jar 3.0L	N580139-00000-B01010

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drinkware is supplied with the verified CE Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.
- Dishwasher & freezer safe.
- Items must be carefully placed in the dishwasher while avoiding direct contact with other dishes and drinkware.
- Do not wash with harsh abrasives such as brushes or scrubber pads as this may cause scratches; harsh chemicals including strong acid or alkali cleaning agents should also be avoided.
- Use warm, soapy water or a neutral dishwashing liquid for cleaning.
- Dry naturally or with a soft cloth after hand washing; we recommended using a microfibre cloth to preserve clarity.
- Product can be used normally between temperatures of -30°C and 110°C (-22°F and 230°F).
- Avoid prolonged exposure to UV light, sunscreen or chlorine.
- Not recommended for use in microwaves or high temperature sterilisers.

Polycarbonate drinkware is almost indestructible, hard and rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear, unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to asses scratching is needed as to offer the customer a perfect drink.

Utopia Drinkware:

Drinkware is supplied in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

Polypropylene Lids, Stoppers & Bottoms:

- Do not use strong acid or strong alkaline cleaning agents.
- Temperature should not exceed more than 104°F (40°C).
- Avoid excessive water pressure as well as objects pressing on the product or it may cause deformation.

Creative Tableware includes an array of products all of which require different care to ensure you keep them at their best. See below for information on how to look after you Creative Table products.

Estrella Traditional Terracotta:

- Suitable for traditional ovens, hobs, microwaves & freezers.
- Terracotta is naturally fragile and should be handled with care.
- Terracotta is naturally porous, soaking in water should be avoided.
- Terracotta is suitable as oven to tableware.

Fuji: (as above)

- However, with increased strength and durability.

PVD Coated Items

- For PVD coated items extra care should be taken.
- Whilst dishwasher safe, handwashing is recommended to preserve the finish.
- Avoid prolonged contact with acidic food types.
- Avoid abrasive pads and harsh or chlorine-based detergents.
- Remove promptly after washing and dry thoroughly.
- Do not leave to soak.

Copper Presentation Serveware:

- Please be aware copper will naturally oxidise over time.
- To maintain an optimum finish, hand washing is recommended.
- Using metal scourers or abrasive cleaners will affect the finish of your copper serve ware, to avoid this, wash in hot water straight after use with a soft cleaning sponge.

Wire Baskets & Presentation Papers:

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers.
- Not suitable for ovens or microwaves.
- Presentation papers are 100% biodegradable and can be discarded in food waste.

Cast Iron:

- Cast Iron is ideal for use in the oven and on stoves and withstands temperatures up to 260°C.
- Always use heat protective wear when handling the products – handles will become extremely hot.
- Never place hot items directly onto unprotected surfaces – it is recommended to use the Acacia Wooden Boards that are available with all Utopia Cast Iron pieces.
- For care of the Cast Iron Wooden Boards – follow the Acacia Wooden Board/Tray' care advice.
- Always use Plastic/Wooden utensils – metal may damage the surface of the enamel.
- Abrasive scourers may also damage the enamel surface – to remove tough residue soak in hot soapy water.
- Not recommended for dishwashers.
- Ensure completely dry before storing or stacking as items left wet may be prone to rusting.

Slate/Granite:

- Being natural stones – our slate and granite items may vary slightly in size and texture.
- The characteristics of slate are that the edges can naturally chip and create sharp points – care must be taken when handling these items.
- To clean wipe down with a damp cloth and mild detergent.
- For Slate – any scratches can be treated with natural oil and this should be followed from time to time to keep the product looking its best.

Bento Boxes:

- Not suitable for dishwashers, hand wash only.
- Not suitable for oven or microwave use.
- Abrasive scourers may damage the surface of the item – use a soft sponge and soak in hot soapy water for tougher residue.

Natural Woods:

- Store away from direct heat sources and direct sunlight.
- Hand wash in warm soapy water.
- Do not soak in water.
- Dry immediately.
- Not dishwasher safe.
- Bamboo drink paddles are suitable for glass washers – always follow the recommended dish washing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Sourced from a sustainable wood source.
- Darwin, Acacia, Olive and Fir Wood will vary significantly in size and shape as these are natural cuts of wood.
- Restore Natural Woods with a wiping of olive oil.

Enamel:

- Oven proof and Dishwasher safe.
- For best results, after use soak in warm water, then wash gently with a liquid detergent.
- Do not use abrasive cleaning pads or powders.
- Items will chip if handled roughly.

Trays:

Plastic Black Non-Slip Trays:

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Not suitable for dishwashers – wipe down with a clean damp cloth after each use.
- Do not leave submerged in water.
- Do not stack whilst damp.
- Do not overload trays, may cause accidental damage or injury.

Fast Food Trays:

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Fast Food Trays are suitable for dishwashers – always follow the recommended dish washing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Fast Food Trays have stacking lugs to accelerate drying and can therefore be stacked straight after washing without prior drying.
- Surface can become slippery when wet, extra caution needed.
- Always stack separately to other crockery in the dishwasher to ensure items do not damage each other in the cycle.
